FISHERY CONSERVATION ZONE

Notice of Limits

The Fishery Conservation and Management Act of 1976 establishes a fishery conservation zone contiguous to the territorial sea of the United States, effective March 1, 1977, the outer boundary of which is a line drawn in such a manner that each point on it is 200 nautical miles from the baselines from which the breadth of the territorial sea is measured.

The Government of the United States of America has been, is, and will be, engaged in consultations and negotiations with the governments of neighboring countries concerning the delimitation of areas subject to the respective jurisdiction of the United States and of these countries.

The limits of the fishery conservation zone of the United States as set forth below are intended to be without prejudice to any negotiations with these countries or to any positions which may have been or may be adopted respecting the limits of maritime jurisdiction in such areas.

Therefore, the Department of State on behalf of the Government of the United States of America hereby announces the limits of the fishery conservation zone of the United States of America, within which the United States will exercise its exclusive fishery management authority as set forth in the Fishery Conservation and Management Act of 1976, pending the establishment of permanent maritime boundaries by mutual agreement.

Publication of a notice on this subject which is effective immediately upon publication is necessary to effectively exercise the foreign affairs responsibility of the Department of State. (See Title 5, U.S.C., 553 (a) (1) and (b) (3)).

The North American coordinates in this notice relate to the Clarke 1866 Ellipsoid and the North American 1927 datum for the contiguous United States.

Straight line in this notice means a geodesic line.

FOOTNOTES

¹ The limits of the U.S. fishery conservation zone in areas adjacent to Canada do not correspond to limits of the Canadian fishery zone as described in the Canada Gazette of January 1, 1977.

² In view of the fact that the claimed limits of fishery jurisdiction published by the United States and Canada would leave an unclaimed area within the Gulf of Maine, the United States will exercise its fishery management jurisdiction to the Canadian claimed line where that line is situated eastward of the United States claimed line, until such time as a permanent maritime boundary with Canada is established in the Gulf of Maine.

³ Agreed with the Government of Mexico as a provisional maritime boundary on November 24, 1976.

⁴ Establishment of the fishery conservation zone as set forth in this notice is without prejudice to claims regarding the sovereignty of disputed islands.

Dated: March 1, 1977.

DEPARTMENT OF STATE

[Public Notice 2237]

Exclusive Economic Zone and Maritime Boundaries; Notice of Limits

By Presidential Proclamation No. 5030 made on March 10, 1983, the United States established an exclusive economic zone, the outer limit of which is a line drawn in such a manner that each point on it is 200 nautical miles from the baseline from which the breadth of the territorial sea is measured.

The Government of the United States of America has been, is, and will be, engaged in consultations and negotiations with governments of neighboring countries concerning the delimitation of areas subject to the respective jurisdiction of the United States and of these countries.

The limits of the exclusive economic zone of the United States as set forth below are intended to be without prejudice to any negotiations with these countries or to any positions which may have been or may be adopted respecting the limits of maritime jurisdiction in such areas. Further, the limits of the exclusive economic zone set forth below are without prejudice to the outer limit of the continental shelf of the United States where that shelf extends beyond 200 nautical miles from the baseline in accordance with international law.

The following notices have been published which have defined the United States maritime boundaries and fishery conservation zone established March 1, 1977: Public Notice 506, *Federal Register*, Vol. 41, No. 214, November 4, 1976, 48619-20; Public Notice 526, *Federal Register*, Vol. 42, No. 44, March 7, 1977, 12937-40; Public Notice 544, *Federal Register*, Vol. 42, No. 92, May 12, 1977, 24134; Public Notice 4710-01, *Federal Register*, Vol. 43, No. 7, January 11, 1978, 1658; Public Notice 585, *Federal Register*, Vol. 43, No. 7, January 11, 1978, 1659; Public Notice 910, *Federal Register*, Vol. 49, No. 155, August 9, 1984, 31973.

This Public Notice supersedes all limits defined in the above Public Notices.

Therefore, the Department of State on behalf of the Government of the United States hereby announces the limits of the exclusive economic zone of the United States of America, within which the United States will exercise its sovereign rights and jurisdiction as permitted under international law, pending the establishment of permanent maritime boundaries by mutual agreement in those cases where a boundary is necessary and has not already been agreed.

Publication of a notice on this subject which is effective immediately upon publication is necessary to effectively exercise the foreign affairs responsibility of the Department of State. (See Title 5 U.S.C. 553 (a)(1)(B).)

Unless otherwise noted, the coordinates in this notice relate to the Clarke 1866 Ellipsoid and the North American 1927 Datum ("NAD 27"). Unless otherwise specified, the term "straight line" in this notice means a geodetic line.

⁸ The limit of the U.S. exclusive economic zone in, and seaward of, the Dixon Entrance do not correspond to the limits of the Canadian fishery zone, as defined in the Canada Gazette of January 1, 1977. Where the claimed boundaries published by the United States and Canada leave an unclaimed area within Dixon Entrance, the United States will exercise fishery management jurisdiction to the Canadian claimed line where that line is situated southward of the United States claimed line, until such time as a permanent maritime boundary with Canada is established in the Dixon Entrance.

Participation in Working Group To Elaborate a U.N. Declaration on Indigenous Rights

The Economic and Social Council (ECOSOC) of the United Nations has approved establishment of an open-ended, inter-sessional working group of the Commission on Human Rights to elaborate a draft declaration on indigenous rights. The goal of the Working Group is to prepare a declaration for consideration and adoption by the General Assembly during the International Decade of the World's Indigenous People (1994-2004). [The Working Group will consider the draft prepared by the independent experts who comprise the Working Group on Indigenous Populations, which is entitled "United Nations draft declaration on the rights of indigenous peoples."]

ECOSOC also approved adoption of a special procedure to authorize participation in the Working Group by organizations of indigenous people, including tribal governments, not in consultative status with ECOSOC. Interested organizations should apply to the Coordinator of the International Decade at the following address: The Honorable Ibrahim Fall, Assistant Secretary General for Human Rights, Human Rights Center, Office of the United Nations in Geneva, Palais des Nations, 8-14 Avenue de la Paix, 1211 Geneva, Switzerland.

Applications must include the following information about the organization concerned:

US/46-06

The Ministry of Foreign Affairs of the Republic of the Marshall Islands presents its compliments to the Embassy of the United States of America and refers to the recent arrest and imprisonment of Captain Wen Yueh Lu, former Captain of the F/V MARSHALLS 201, by the United States.

Captain Lu was formerly the Captain of the F/V MARSHALLS 201, which is a fishing vessel registered in the Republic of the Marshall Islands, owned and operated by the Marshall Islands Fishing Company (MIFCO), a joint venture between Koo's Fishing Company and the Marshall Islands Marine Resources Authority (MIMRA). On December 9, 2006, Captain Lu was arrested by the United States for allegedly failing to heave to as directed by the United States Coast Guard on September 9, 2006. This alleged failure to heave to occurred in an area of the Pacific Ocean that straddles the Exclusive Economic Zones (EEZ) of the Republic of Kiribati and the United States. In this respect, we understand that there is no agreement between the Republic of Kiribati and the United States establishing the EEZ boundary in the area where Captain Lu allegedly failed to heave to, and that such boundary is presently based on a unilateral determination by the United States by way of a United States Government regulation.

As part of the same incident for which Captain Lu has been arrested, the F/V MARSHALLS 201 was arrested by the United States Coast Guard on September 9, 2006, for alleged unlawful fishing in the United States EEZ and was escorted to Guam. When the F/V MARSHALLS 201 was arrested, there were 6 Marshallese crew members on board. After the F/V MARSHALLS 201 arrived in Guam, Captain Lu remained with the vessel in Guam until October 13, 2006, when the U.S. Attorney allowed Captain Lu to return to his home country of Taiwan. During the entire time Captain Lu was in Guam, and until December 8, 2006, Captain Lu was not charged with violating any law and there was never any indication that the United States intended to charge Captain Lu for failing to heave to. Captain Lu only returned to Guam to cooperate in the civil case pending against the F/V MARSHALLS 201 by giving deposition testimony on December 7 and 8. Only after Captain Lu completed his deposition testimony did the United States arrest, charge and imprison him. The United States position to arrest and imprison Captain Lu, and ordering his confinement to Guam to await criminal trial in the Federal Court for Guam, is a wholly erroneous and improvident exercise of the sovereign's police power and is contrary to customary international law.

EXHIBIT "5"

Principles of customary international law dictate that Captain Lu be released immediately upon the posting of a reasonable bond. The Republic of the Marshall Islands (RMI), along with 151 other nations, has ratified the United Nations Law of the Sea Convention (LOS Convention). Although the United States has not ratified the LOS Convention, by virtue of the President of the United States' submission of the LOS Convention to the United States Senate for ratification, the United States has expressed its intent to be bound by the LOS Convention and, pursuant to Article 18 of the Vienna Convention on the Law of Treaties, the United States is therefore bound by the rules of the LOS Convention. The LOS Convention provides that when a Coastal State arrests a vessel or crew for violation of that State's fisheries laws, the vessel and crew shall be released upon the posting of a reasonable bond. The LOS Convention further prohibits a Coastal State from imprisoning or imposing any other form of corporal punishment for violation of a Coastal State's fisheries laws unless the flag state of the vessel has consented to such sanction. RMI has not consented to any such sanction. Under these provisions, Captain Lu must be released as soon as a reasonable bond is posted.

In addition, fisheries and maritime resources are one of the few activities that the RMI has available to develop its private sector. The RMI has undertaken a program to maximize economic activity in this crucial sector by encouraging the establishment of locally based fishing vessels which off-load their catch in Majuro for packaging, processing, and shipment of seafood products. These activities also result in spin-off activities such as sales of fuel and provisions.

Presently, the marine resources and fisheries industry in the RMI employs over 300 people, most of which are Marshallese. Koo's Fishing and MIFCO employ approximately 87 Marshallese citizens. Employment of Marshallese in the fishing industry is the fastest growing source of employment for Marshallese citizens in the private sector of the RMI. Without these jobs, Marshallese citizens may need to seek government employment or even migrate to the United States.

The mutual desire of our Governments is to promote private sector development in the RMI under the Compact, as amended, as expressed in the statement made by the Chairman at the most recent JEMFAC meeting on August 30, 2006. In this instance, however, actions taken by the United States Government with respect to Captain Lu directly contravene these mutual objectives. These actions by the United States are frustrating our efforts to develop the private sector of the RMI by insisting on the imposition of criminal measures against Captain Lu personally that will significantly reduce the economic viability of the business for MIFCO as well as its ability to attract and retain qualified Captains to engage in such business. Without qualified Captains, Marshallese will not be able to crew MIFCO fishing vessels and thereby be gainfully employed while also furthering RMI's development of our private sector.

The Ministry therefore requests that the United States act to resolve this matter as quickly as possible by providing for the immediate release of Captain Lu upon the posting of a reasonable bond.

The Ministry of Foreign Affairs of the Republic of the Marshall Islands avails itself of this opportunity to renew to the Embassy of the United States of America the assurances of its highest consideration.
